At this price point, expectations are high for luxury homes in Panama, and this stunning Costa del Este home for sale does not disappoint! Enter thru the unassuming facade and you are taken into a residence that captures the essence of tropical: 12’ ceilings, floor to glass sliding doors that open completely to the outdoors, and a seamless floor plan that is perfect for entertaining and relaxing. The open kitchen melds perfectly with the living and dining areas and features imported stone countertops, hardwood cabinets, Viking gas appliances and plenty of space for the creative chef. The pool absolutely must be appreciated in person! With the tropical landscaping and proximity to the ocean, prepare to relish early mornings and late evenings, getting in that quality outdoor time Panama is famous for. Private areas of the home include three guest bedrooms, each with their own bathroom and closet, plus a home office and den. And the master bedroom, which is the entire second floor, will take your breath away by it’s elegance and sheer size! Walk in closet, private rooftop patio with jacuzzi, and views out over the ocean. This 5 star property has plenty of extras including closed garage and storage, backup utility systems, internal gardens and an energy you have to visit to believe! For appointments contact Ruben Nuñez: +507 6430 6003
