Beautiful two-story home on a big lot with a landscaped garden in a high-end, "hot" estate that is immaculate and luxurious. This wonderful home has an open kitchen and living room, a big covered patio, and a sparkling pool, so there is plenty of space for the whole family to enjoy. Audi Snyman, an internationally known interior designer, has filled this beautiful home with high-end furnishings. The Onyx Stone show in the main bathroom is probably one of the most interesting things to see. The price of onyx shows that it is one of the most sought-after gems out there right now. This stone is well worth the money because it looks great and lasts a long time. Onyx stone is an investment that will pay off for a very long time. You can get to the "Koppie" from this land through your own private gate. From there, you can see all of Pretoria.

This beautiful home has 5 large bedrooms, each with its own bathroom, a great home theater, an upstairs games room with a vaulted ceiling that opens up to a balcony with a view of the Rietvlei dam, 4 luxurious lounges, 2 very large studies, a wine cellar, and a modern kitchen that opens up to a dining area, lounge, and heated spa pool with an overflow fountain. Big bedroom with a fireplace, plus a separate living room with another fireplace and a coffee station. People like full-length mirrors in dressing rooms because they let you see your outfit from all sides. The walk-in dressing room has one of these. For those warm summer nights under the African sky, the main bathroom has a double outdoor shower for when it's too hot to shower inside. The floors of all 9 garages are coated with epoxy, and there is also a fully stocked workshop with a 4-poster lift and a large upper storage floor that can be used for extra storage. This house also has a double domestic rooms that are fully serviced. There is room for more than 30 cars in the garage in case you have a party.

Through an app on your smart device, you can control your home from anywhere in the world with the touch of a button. This modern mansion has cutting edge security and video systems. You can check on and change the security cameras, lights, blinds, or entertainment systems. A backup water system with a 20,000-liter tank is also included in this home in case the power goes out during loadshedding. The inverter battery and solar panels will help with this.
