This is a family home in the sought-after Irene Farm Villages Estate that doesn't have loadshedding. This house is on a corner lot across from a park, which makes it feel even bigger. You can enjoy the sunset from the porch of your main bedroom. This house is perfect for a family that likes to have parties both inside and outside, since all the living rooms lead to the yard and pool area. Ground Floor: When you walk in through the big wooden front door, you'll notice the two-story entrance with a high ceiling and a chandelier. There is a bedroom with a bathroom on the left side, which is great for teens or guests. On the right is a family room with an American-style stove and shutters that keep the room even warmer in the winter. The corner has a study nook or a great spot for a piano or other musical instrument. It leads to a large dining room. These two living areas are different, but they connect in a way. From the dining room and the stairs, there are big wooden double doors that lead to the farm-style kitchen and TV lounge with air conditioning. One door leads to a covered patio with a built-in braai, and the other door leads to the back yard. This is a great place for families to hang out together for breakfast in the morning, while cooking dinner, or just to hang out.
