This place is in the Outeniquasbosch Wildlife Estate, a wild area where animals are free to roam. Nature lovers can feel safe in this town where they can enjoy wildlife, hiking trails, and horseback riding. George Airport is 20 minutes away by car, Hartenbos is 3 km away, and Mossel Bay's main shopping area is 12 km away. This is an architecturally built home with high ceilings that are open and light coming in through the stacking doors.

This modern 3-bedroom, 3.5-bathroom home is perfect for a family that loves spending time at home. The wide, open ceilings and doors that stack when they're open give the house a great sense of space.

You will feel like you are in paradise if you live in the peaceful Outeniquasbosch Wildlife Village. This luxury 525ha development is right in the middle of Hartenbos and the Garden Route. It has stunning views of Mossel Bay and the rolling hills covered in Fynbos. Of the 525ha, 75% will stay natural. The estate has electric perimeter fences, restricted entrances with face recognition, and security guards who roam around at night. Each home can have two pets.

It is full of animals and birds, and the way the homes are built lets the animals roam easily among the homes. Residents buy into a private, one-of-a-kind way of life in balance with nature that can't be found anywhere else. There are walking trails, hiking trails, and canoeing routes through the beautiful surroundings.
