This modern beauty has views of the city, a gym, a movie theater, a lot of space, and all the best features. The building was finished in 2021 and is on a big stand. All of the rooms are big, bright, and have lots of windows that let in light and show off the views of the city. Chandeliers made of crystals give a room style and class. A separate, huge room was set aside as a movie theater with enough seats for at least 12 people. The modern kitchen is open to the dining room, which looks out over the formal living room. There is a hidden room area that can be used for a kids' play area or as a lounge for guests. There is a guest bedroom with en suite shower, a study, and a guest toilet on the first floor. The second floor has a landing with a reading nook, a cozy pyjama lounge, and 4 huge bedrooms, all with en suite bathrooms. The main bedroom is very fancy, with a jacuzzi tub and colored cabinets in the walk-in closet. The house has a third level that runs along the pool and has a private gym, a covered play room, a laundry room, a storage room that can be used as a craft room or sixth bedroom, and quarters for staff. The house as a whole opens up to a well-kept yard with a huge 6x10 m pool and a 2x6 jacuzzi pool for kids set in a rock water feature. Some of the best things about this beautiful home are the central air conditioning, gas fireplace, separate cooker in the scullery, gas and electric stove, plasma TV, built-in fridge and freezer, and imported Italian cabinets all over.
