This house is well-designed to give families space and comfort, and it is located in a great spot in Waterfall Country Estate, inside gate 2. On the first floor, there is a bright double-height entrance hall that leads to a traditional living room that is open to a dining room and modern kitchen. There is a guest bathroom with a shower and a large wing for guests with a living room, a bedroom, and their own bathroom with a shower. The guest wing has its own door and is accessible by wheelchair, making it perfect for elderly family members living with you or as a rental property.

If you put the stove in the right place, it will keep the whole room warm.

A huge family room with a built-in braai and bar area gives you more space to have fun. It leads to a covered patio with a view of the yard and pool.

There is a separate home office that can be used as a fifth bedroom if important.

A pyjama area, two bedrooms that share a full bathroom and separate toilet are on the second floor. The master bedroom has its own bathroom. From the pyjama room, you can get to the balcony with the view.

From the second floor, you can also get to the living rooms, which have their own bathroom and outside entrance.

The house has two garages and a lot of extra room. Some of the things that make the home more valuable are solar panels, underground water tanks, fiber internet, and security cams.

Bedrooms and sitting rooms that face north.
