Fitted office is ready to be used right away.

Sandown Mews is a high-class, well-known office building in the middle of Sandton's busy city center. The property is made up of two separate buildings with different tenants. Both buildings have views of the central business district. The property is conveniently located close to the Gautrain station, Sandton City Shopping Centre, The Marc, a trendy shopping and dining hub, and the well-established Sandton business district. This building has many great features, such as security that is on duty 24 hours a day, parking in the basement, fiber-optic internet, backup water tanks, a generator, and modern design and finishing. This is a great place for businesses that want to have a professional address.

This office space is 2,331 square meters and is on the second floor. It has huge floor-to-ceiling windows that give you stunning views of Sandton. Fittings for the space are already there, so it can be moved into and used right away. There are cell phones in the offices, executive suites, a server room, and a big kitchenette with a break room. The layout of the office makes good use of the space, giving workers plenty of room to be comfortable and work together.

There are also several balconies in this office area, but only the people who work there are allowed to use them. In addition to making the office more comfortable and convenient, this feature also helps keep the place healthy and productive for everyone who works there.
