With a 4 Star Green Rating, Alice Lane Building 3 stands out as a high-quality building. It is right in the middle of Sandton, making it easy for people who use public transportation to get to the Gautrain Station.

There are a lot of useful places nearby, like Sandton City Mall and Nelson Mandela Square, for people who like to shop. There are also restaurants and other business buildings in the area. Security is very important, and renters can get in at any time. Back-up engines and water systems are built into the building.

Large windows let in a lot of natural light into this room on the third floor. It has a layout that was already carpeted, and at the front door, there is a warm welcome area with wooden floors. Different meeting rooms, boardrooms, and kitchenettes are placed in a way that makes them more useful.
