An addition to 90 Rivonia was built by architects to connect to the Weber Wentzel. This building is located on Rivonia Road, which is a well-known and easy-to-reach road in Sandton's busy Central Business District. The building is only a short walk from the Gautrain stop and many shopping malls, such as Sandton City and Nelson Mandela Square. If you're looking for a high-class address for your new headquarters, 90 Rivonia is the clear winner.

There is surveillance and on-site protection at the building 24 hours a day, seven days a week. Generators and water tanks are installed on the property to make sure that activities don't stop.

The office has a big entrance area with wooden floors that can be used for meetings or as a casual place to eat. This creates large boardrooms or open-plan rooms for individuals that get a lot of natural light. As part of the deal, there are private offices and another open area with carpeting. Along with the main room, there is a separate kitchenette.
