The Place is a fresh P-Grade building with a prime location in the business district of Sandton and stunning views of Johannesburg. The ground floor has a lot of services, and the Sandton City Shopping Mall is only a short walk away. You can also use the on-site canteen, which serves the neighborhood.

The commercial building that was just remodeled has great security at both the parking lot door with the boom and the front desk. There is a backup engine and water in the building, and it is also ready for fiber.

This empty room on the second floor is ready to be used right away. The office is already set up with a reception area with wooden floors, a big open area with carpeting, two boardrooms separated by glass walls, a kitchen for separate use, and private bathrooms for both men and women assigned to this unit.

Kindly contact us for more information.
