On William Nicol Drive, there are two two-story buildings that make up this business park. The grounds are beautifully landscaped and have many old trees. Its strategic location close to the N1 highway makes it easy for both clients and renters to get to. Within easy reach of the office park is the busy Bryanston shopping district, which boasts a wide range of stores.

The room available has a beautiful fit-out in place, so the new tenant will only have to pay a small amount of money to get started. The welcome area is warm and has beautiful tiles. A big corner office can be reached from this room. It can be used as a meeting or an executive suite. After going down the hall, there is a large, fully equipped wet kitchenette that has room for more tables so that you can eat lunch there. There are also a few fully carpeted cell offices set up.

There are many big aluminum windows in the unit that let in a lot of sunlight. The unit also has air conditioners and A-Grade fittings and fixtures. There are also big glass doors in the office that lead to private decks where you can get some fresh air.
