Alice Lane Building 3 is a beautiful high-end building with a 4 Star Green Rating. Being right in the middle of Sandton gives it an unbeatable location edge, making it easy for people who use public transportation to get to the Gautrain Station.

It's close to a lot of useful places, like Sandton City Mall and Nelson Mandela Square, which are great places to shop. Around Alice Lane are hotels and other business buildings.

With protection on duty 24 hours a day, seven days a week, you can feel safe on the premises. Back-up power and water systems are built into the building, and there are friendly receptionists to help people find rooms.

Since this office is on the third floor, it gets a lot of natural light through its big windows. It already has a plan, and the whole office is covered in wood floors. It has a large lobby that leads to a bright office. There is a kitchenette inside the room that is only for your use. Private rooms of different sizes can be found further down the hallway. At the far end, there is a beautiful executive suite.

Contact me today for more information.
