Knightsbridge Office Park is a P-Grade Park that is in the middle of everything and is easy to get to from important roads like William Nicol Drive, Main Road, and the N1 highway. There are so many trees and plants around this modern office park that it feels like an oasis in the middle of the busy city. There are many places in the park where you can enjoy the beautiful views of Sandton and the nearby areas. It's a peaceful escape from the daily grind.

There is a rooftop stop area in the park that is great for taking a break from work or having lunch with coworkers. In addition to its offices, Knightsbridge Office Park is happy to have an elegant and well-run restaurant where people can meet, eat, and have fun. The business Park also has a large conference and training room that is separate from the business buildings and can be reserved for events, meetings, or training times. This elegantly designed and well-appointed ground-level office space is an ideal option for a company seeking a move-in ready solution. The office features ample individual office spaces partitioned with glass walls, well-equipped boardrooms with built-in cupboards, spacious meeting rooms, and a private kitchenette for the staff's use. Additionally, the office also has a shared balcony. Contact today me to schedule a viewing.
