Wake up to the smell and sound of the Atlantic Ocean.

This 173-square-meter apartment is a must see! It has three bedrooms, five and a half bathrooms, and large living rooms. The dining room, living room, and patio all flow out to a large patio with a heated pool, an eating area, sun loungers, and a gas braai. This is a great place to hang out with family and friends.

The stove, washer, and dryer are all in the open kitchen with stone countertops. There is extra space for an au pair or housekeeper who wants to live there.

Two cars can be parked safely on the roof, and it only takes a short walk down Carin Steps to get to the flat.

From most parts of the flat, you can see beautiful views of the beach, mountains, and ocean, and also has a domestic accommodation.

12-month lease with option to renew. Available immediately, call me to arrange a viewing.
