This beautiful home is on the hills of Camps Bay and looks out over the Atlantic Ocean. From every room, you can enjoy the stunning view. The master bedroom has its own bathroom, a walk-in closet, and a private porch. The master bedroom has a view of the ocean and the Twelve Apostles in every direction. The open-plan living area downstairs is great for having people over. A big, zen-style kitchen with lots of cabinets and the best tools. The kitchen opens up into the living room, which has a fireplace for the winter. From the living room, you can access a lovely outdoor space with a pool and a place to relax with a view of the scenery.

The living area and three bedrooms, each with its own bathroom, are on the same floor. Each bedroom is fully furnished and equipped. There are cutting edge protection systems in this house that make it very safe.

Behind the gate is a two-car garage and a lot of room for more parking. A great value-add is the cottage downstairs, which has its own kitchen and bathroom and is fully supplied.

Call me today to set up a showing.
