This beautiful two-bedroom apartment is high up in a popular building and has a view of the busy Green Point green lines. It is in a great spot and you can walk to the waterfront, the Virgin Active Gym, the Green Point Urban Park, great restaurants, and other places.

The floor-to-ceiling height in this modern open-plan living space is higher than usual. It's a great place to live in comfort and style. The kitchen was carefully planned to have everything you need, and it flows wonderfully with the living room and dining area.

The main bedroom has its own bathroom and floor-to-ceiling sliding doors that open up to a view of Green Point and the Cape Town Stadium.

The building has a great pool and deck on the roof that are great for having people over on hot summer days. There is protection 24 hours a day, underground parking, and a private storage room.
