This modern, fully equipped, and furnished apartment is in a great spot in Bantry Bay. It's only a short walk to the Atlantic Ocean beach and the Sea Point high street, which is full of restaurants, shops, and coffee shops.

This beautiful one-bedroom apartment has a deck with views of the sea and is in a very modern, popular building with a security concierge on duty 24 hours a day. It doesn't happen very often that flats in this building become available for sale.

The residence has a pool and entertainment room for everyone to use, and the staff that takes care of the building is very good.

The flat is finished out beautifully on the inside and is ready for you to move in. The floor plan is open and modern, but it still feels like home. This apartment has a living room that is open to the kitchen and a large living room with a study that is ready for you. It also has air conditioning and fiber internet. The bathroom is bigger than most and has all the great features, like hot towel rails and underfloor heating. A lot of storage space, with extra cabinets built in. One great thing about having a big storage room just two steps from your front door!The apartment comes with a safe, underground parking space for one car.

No airbnb's allowed.

Kindly contact me for a viewing.
