Are you ready to live in style, comfort, and luxury? The style of this house is really great, and the large windows let natural light into every room. The two-story entrance leads to a large hall that continues down the hall and into the living areas. These include two lounges, an eating area, and a large, enclosed patio with a sparkling pool that looks out over the well-kept garden. It has a breakfast bar, a center island, high-end tools, a gas range and teriyaki grill fit for a chef, and a separate scullery/laundry room. There is a separate study with two big reception rooms that are great for working from home. Below is a room for guests to hang their coats. There are 4 well-sized bedrooms with separate bathrooms and balconies on the second floor. Four automatic garages, a place for staff to live, a two-bedroom apartment, and a storage room. Extras like air conditioners, underfloor heating, a gas fireplace, a wine cellar with storage, piped sound, a fully irrigated yard, plenty of parking for guests, and fiber are just a few. This house can be rented with all of its furniture included.
