When you walk in, you'll see a grand two-story entrance that links to all three reception areas without any problems. The living room and dining room are both good sizes, and the doors that stack away let in a lot of natural light. There is a gas stove, an electric stove, a built-in fridge and freezer, and a separate scullery in the modern kitchen to make things easier. It's possible to use the separate family room downstairs as a home office or a well-equipped guest bedroom with its own bathroom. As you go upstairs, you'll find 4 more bedrooms, each with its own modern bathroom. There are "his and hers" walk-in closets, a big main bathroom with a bathtub, and a private balcony with a view of the garden in the master bedroom, which is very large.

The large covered patio that can be reached from the living room is one of the best things about this home. This open space is great for having people over or just relaxing in the nice weather. It makes going from living inside to outside easy because it has a built-in bar service and braai. The patio has a beautiful view of the sparkling pool, which makes the environment calm and relaxing. There is also an inverter, a solar geyser, and automatic parking for three cars. The flatlet could be used as a teen pad or staff housing. Get in touch today to schedule a viewing.
