This beautiful modern two-story family home offers large and luxurious living spaces. The double-story entrance makes you feel welcome and flows smoothly into the three reception rooms. There is a lot of natural light coming into the home through the stack-away doors that make the living room and dining room nice and big. There is a gas stove, a fridge and freezer built into the wall, and a separate scullery to make the modern kitchen even better. There is an outside laundry room right next to the kitchen. One of the rooms downstairs is a family room that could be used as a home office. There is also a nicely equipped guest bedroom with its own bathroom. There are three more bedrooms on the second floor, and each one has its own modern bathroom. The master bedroom is huge and has bathrooms with "his and hers" sinks and walk-in closets. The large covered patio that can be reached from the living room is one of the best things about this home. This open space is great for having people over or just relaxing in the nice weather. It makes it easy to move from life inside to outside because it has a built-in bar and braai. Views of the sparkling pool can be enjoyed from the patio, making the space feel calm and peaceful. A flatlet that could be used as a teen pad or staff housing is also included, as well as automatic parking for three cars, an inverter, and a solar geyser. Contact me today to schedule a viewing.
