A truly unique 720sqm home with beautiful living areas that is perfect for living in style. The double-volume door makes a stunning entrance to the home. The open floor plans on the ground floor make it possible to have parties in any weather. The large covered porch is next to the formal living room, dining room, and family room. When you step outside onto the covered patio, you'll find a natural haven with a big pool, a carefully landscaped garden, and automatic watering. A large kitchen with a separate scullery, lots of cabinet room, and a large island where the whole family can eat together.

This house is in a quiet cul-de-sac and has five bedrooms, with the fifth bedroom having its own bathroom downstairs. There are four bedrooms and three bathrooms on the second floor, along with a cozy pyjama lounge or office. The main bedroom and the fourth bedroom are both very large and have their own bathrooms. The master bedroom has a lot of closet space, a sitting area, and a private patio.

There is also a place for staff to live, three and a half cars, fiber connectivity for modern connections, and an 8KVA inverter that makes sure the power stays on even when there is load shedding.
