Through a servitude entrance, this stylish residence welcomes you to a great, roomy home that stands alone. The 4000 square meter lot size and 800 square meter floor space of this house give it a lot to offer. A koi pond, water features, a thatched entertainer's lapa, a heated swimming pool, a gym with a steam shower and sauna, a lot of parking and garage space, and staff rooms with a kitchenette are all part of this. The living areas include a traditional living room, a kitchen that is open to the dining room, a bar with a wine cellar, and a room with stacking doors that lead to the patio, pool, and landscaped garden. The family room has a living room, a dining room, a fireplace, and a storage room. On four ends of the room, doors stack. A/C is in most of the rooms. There is a master wing with a walk-in closet, a study, a balcony, and a big bathroom right next to the bedroom. The guest suite has a full bathroom and a walk-in closet that opens up to the yard. One of the other three bedrooms has its own bathroom, and the other two share a bathroom that is next to them. The kitchen has a cooking island with a breakfast nook, a double-door fridge with lots of cabinet space, and gas and electric stoves with ovens that are eye level. There is a lot of cabinet space and room for three under-counter tools in the scullery. Gas geysers, solar power to fill the boreholes and the koi pond, water for the showers, and water for the house are all included with the house. The gardener comes once a week, Monday through Friday. This land has an electric fence, cameras, an alarm, and a generator to finish it off.
