This single-story, newly renovated home is in a quiet cul-de-sac close to the golf course and walking trails. It is full of natural light and has a lovely, continuous flow all through. It has both formal and informal living spaces that flow out to a sun-drenched indoor/outdoor covered patio. It was cleverly built to make living and entertaining easy. The room has a fireplace that burns wood, which is great for cold winter nights. The kids and pets can play outside in the lovely, private yard that has been there for a long time. When you go back inside, the soft, clean lines will greet you as you walk into the sleek, modern kitchen. It has a stainless steel gas stove, Caesarstone countertops, a Smeg oven with both an electric and gas stove, lots of cabinets, and a lovely breakfast bar where you can sit down and eat. The property also has a separate scullery that leads to a large garden. The large, open-plan sitting rooms. You can enjoy 4 bright, roomy bedrooms tucked away in the Westerly wing, along with two bathrooms (MES). There are white American Shutters and air conditioning in every bedroom. For backup power, a solar inverter system was added. This beautiful family home also has a double garage and a carport for a golf cart. (There is neither a pool nor a place for workers to stay.)
