The house has feasible, open-plan living areas like a large living room, a dining room, and a gourmet kitchen with a gas stove. Custom-made glass stacker doors to the left of the living room lead out to the covered patio with TV and sound system, which has a view of the pool and well-kept yard. There is also a storage room and a bathroom for guests downstairs. There are three large bedrooms upstairs, each with its own windows. The master bedroom has its own full bathroom, and the other two bedrooms share a full bathroom. There is a solar inverter device on the house that powers the whole thing. There are air conditioners in every room, a gas fireplace, DSTV, an integrated music system, and two garages that are fully automated. It's cleaned twice a week and has garden service once a week as part of the fee amount. Don't pass up this amazing house!
