With the care and attention to detail of a master craftsman, this piece has clean lines, double volumes, and great proportions. A calm and peaceful atmosphere is created by the way the textures of concrete, glass, marble, and lush plants mix together. This house has everything a modern person could want. The inside and outside feel like one space because of the way the rooms flow into each other. A lot of natural light can get into homes with lots of windows. The entrance hall has two levels and leads to reception rooms that are open, luxurious, and easy to move around in. One of these is a formal lounge that leads to the dining room. The stylish appeal of this room includes both formal and casual entertaining. It has everything a family needs to live easily, love, and have fun. It's where the sophisticated meet the modern. The reception rooms are all connected to the patio, the pool, and the well-kept, low-maintenance yard, so it's easy to go from inside to outside. The kitchen has its own look thanks to its simple, clean lines, high-quality finishes, and Miele tools. The large island kitchen is the hub of the house and opens up to the living rooms and patio, making it easy to gather with friends and family and live together. Keep the laundry and the kitchen separate. There are four more bedrooms on the second floor. Each one has its own bathroom. The guest bedroom area is on the lower level. There are 4 rooms, and each one has its own bathroom. There are three upstairs and one downstairs. The master suite is a real haven. It has a bathroom that feels like a spa, a private porch, and beautiful views of the land. This lovely home has a sleek home theater, a wine cellar that is kept at the right temperature, a private gym, and a lovely outdoor living area with a pool, spa, and big terrace. Do not miss this one-of-a-kind chance. Get in touch with us right away to set up a private viewing.
