This two-bedroom apartment takes advantage of the trend for big, open-plan living by giving you comfortable areas in a big space. The design puts the kitchen and living room at the top of the list, while the bedrooms are still a good size and have plenty of built-in storage. The decks are one of the best things about this building and this apartment because they let you eat and live outside. There is a concierge service, package pickup and delivery, a car wash, shuttle service to Sandton and nearby areas, including the Gautrain stop, a retail level, and a gym. Some features are:

High-speed Internet access via WiFi, high-gloss imported kitchens with all equipment built in, Central air conditioning, gas water heaters, a gas stove, fully glazed full-height facades with big sliding doors, full-width covered balconies, and LED lighting that uses little power. Adding a gym and spa will finish and improve your 360° lifestyle offering. Out onto a friendly mixed-use retail park-like area that is always busy with people and full of unique shops and a mix of fine dining and deli-style food options. You can get out of the house and go to the Square, which is lively and welcoming and has many shops and restaurants. In an urban park, you can have a picnic, listen to live music, and eat delicious food while you explore the well-designed grounds.
