This apartment is in a high-class building with amazing views of the sea and the city skyline. It is the epitome of luxury living. The floors are made of engineered oak wood, which makes the house feel warm and classy. There is granite on the countertops, a glass-top stove with an exhaust fan, and lines for a dishwasher, washing machine, and dryer. The kitchen is beautiful. The cabinets in the kitchen are shiny white and made of glass. In the middle of the room is a big bar with two stools. This kitchen is a dream for people who love to cook and have people over. The main room has a lot of space, lots of light, and amazing views. The room has a beechwood bar, a matching bar table, and high-back chairs. These make the space more useful and are great for having people over. Sliding glass doors with shutters that look like they belong in a Mediterranean village lead to a large porch with an awning that can be pulled out or put back in as needed for comfort and weather conditions. The patio is a large and inviting outdoor space that can fit a dinner table, chairs, recliners, and other furniture. This makes it a great spot to relax, have a party, or eat. The second room is cozy and relaxing, and it leads to a large office. The master bedroom has sliding glass doors that lead to the balcony and a view of the sea. The en suite bathroom is a dream come true, with a big shower, the best bathtub for relaxing in, a double sink set in a vanity, and a toilet. There is a hallway with lots of floor-to-ceiling cabinets that leads to the bathroom. High-end touches are used to finish off the bathroom. There is a soft and fancy carpet in the bedroom. There is an en suite bathroom in the second bedroom as well. It has a shower, a sink set in a cabinet, and a toilet. The bedroom is a great place for kids or friends to stay because it is private and friendly. The flat has a separate guest toilet with hand basin for convenience. The apartment is on the same level as the double garage, which makes it wheelchair friendly. Ducted aircon throughout, Air Fibre, solar film on windows, communal swimming pool, visitors parking are all added bonuses. The building has 24 hour security with a guard, CCTV cameras and electric fencing ensures that you and your family are safe and secure at all times.
