This stylish, two-story family home with six bedrooms will win your heart. Located on a flat plot of land with a view of the Indian Ocean at the intersection of Mersey Road and Hedge Row. This home's architectural design makes it light and airy. The ground level features an open concept living/dining/kitchen area connected by a traditional marble-floored entrance hall. This space exudes a similar degree of elegance as it opens into the sleek kitchen, complete with contemporary fixtures and appliances that are a woman's dream—granite countertops, an eye-level oven, and a permanently installed double-door refrigerator. A second fully equipped kitchen exists. There are two bedrooms below, one of which has a private jacuzzi en suite. You can feel the tranquil environment blowing towards you from the water as a sliding door opens onto the lawn. There are four bedrooms upstairs, with the master bedroom being a haven of calm, quiet, and seclusion with a walk-in closet, air conditioning, plenty of cabinet space, a jacuzzi, and a shower. Additionally equipped with air conditioning and built-in cabinets, the third and fourth bedrooms are ensuite. There is a room in the middle that can be used for dining, lounging, or entertainment. The master bedroom's sliding door opens to a verandah with breathtaking views of the Indian Ocean. A large parking area can accommodate roughly six or seven vehicles. Excellent restaurants, stores, and schools are all nearby. This is your ideal family house!
