Situated on one of the most sought-after roads in Glenwood, this jewel of a house has commanding views over the city and harbor and is a solid family home in a pleasant and safe neighborhood. You will be drawn in by the allure of this distinctive house as soon as you walk in, with its tall ceilings, antique stained glass doors, and floors made of both marble and wood. The main bedroom suite has a porch that opens up to a stunning view of the well-kept garden and pool area that stretches far into the distance. A walk-in dressing area and an attached bathroom are further features of the room. The complete family bathroom is shared by the other three roomy bedrooms, each of which has fitted built-in cabinets. During the scorching Durban summers, an evening can be made comfortable and enjoyable by having air conditioning in most parts of the house. The living quarters downstairs are accessed via the wooden staircase. The open-concept kitchen is well-organized and features a gas stove, center island, pantry, and scullery. It flows seamlessly from the kitchen to the open-concept TV area. The main living area has a study, a large living room, and a dining room that open up onto a large veranda with wrap-around stackable glass windows. This is the perfect place for relaxing family days or hosting friends as the sun sets. There is a separate apartment that is totally separate from the main house. Granite worktops can be found in the kitchen. There is a shower, sink, and toilet in the bathroom. The kids will enjoy exploring this lovely garden or just kicking balls around on the mini football field. Afterwards, they can cool off in the sparkling pool. Two automated garages are present. A store area and staff accommodations are an extra bonus. This residence is part of a very proactive neighborhood surveillance monitoring system and is equipped with CCTV, alarm systems, and external beams. To really appreciate this home's distinctiveness, you should see it.
