In the fancy suburb of Sandhurst, a stunningly beautiful home that exudes style, peace, and architectural unity enters the market. The beautiful home is spread out over three levels. The third level is a garden on top that looks out over the beautiful skyline of Sandton. In the warm South African nights, the sky is filled with stars.

This haven is made for people who appreciate fine luxury and careful planning. Upon entering the dazzling driveway, one enters a world of serene beauty, where the tall structure of glass and concrete rises from the ground amongst a lush fairytale garden complete with lavender, roses, a luscious lawn, and sculpted hedges.

Over the stone pathway, passed the sparkling water-feature pool, and onto the concrete foundation of the sprawling patio, one reaches the bright double-volume entrance. The grand proportions and sharp lines are immediately striking, as a sense of structured space allows the mind to rise into bliss.

A lazy lounge with a fireplace is surrounded by glass walls and sliding glass doors leading onto the patio and pool to the left. Ahead the double-volume foyer with glass panels on the balcony above hosts a broad staircase leading to the second level.

Across the open-plan reception area, to the right side of the lower level, a dining room, lounge area, and kitchen can be found. The bespoke top-of-the-range blue-line kitchen is complete with Miele appliances, clean lines, and an enormous island perfectly placed for presiding over the divine lower level of the home.

All spaces are seamlessly integrated and lead onto the outdoor spaces. This level is complete with a separate laundry/ scullery, a guest bedroom suite with a separate entrance, a guest cloakroom, and three garages.

The staircase leading to the second floor opens onto an enormous entertainment area on both the left and right side of the floor and is bathed in natural sunlight streaming in from glass walls, complete with a grand proportioned balcony.

This versatile space is perfect for a relaxation or entertainment lounge, a library, a tv room, or a media space – the opportunities here are endless! The divine master suite is tranquillity defined.

Complete with an enormous dressing room, a luxurious spa-like bathroom, and a Juliet balcony. The second floor has two more bedrooms, imbued with the same craftsmanship and sense of space as the master suite; both complete with luxurious en-suites, and incredible cupboard space.

In Africa's richest suburb, where the earth meets the sky, the rooftop garden of this magnificent structure can be accessed via an internal staircase. Awe-inspiring 360-degree views of the Sandton skyline and beyond is all one could ask for. Here, relaxation and creative inspiration await with a vegetable garden and herb beds.

Security is a top priority, and the home has high walls with electric fencing, state-of-the-art alarms, and beams, and is monitored by CCTV surveillance. Now, this glamorously crafted masterpiece is all a home should be, with an aura of good vibes and a homely atmosphere.

A lifestyle of incomparable vision and a haven of secure solitude from the bustling modern world awaits you!
