Introducing Estepona Views - a new project consisting of 49 luxury villas situated in the hills above Selwo, offering great sea views. The design of the properties is elegant and modern at the same time, while the contemporary and classic materials bring a pleasant, elegance to a cosy home. The luxurious villas each have up to 5 bedrooms and bathrooms, with a generous living space. Each property sits on a generous plot with your very own swimming pool and green space. Spacious terraces also provide you with the al fresco lifestyle so familiar on the Costa del Sol. Your new villa is also only a short distance from all the local amenities including shops, bars, restaurants, banks, schools, and of course, the beach. The living space has been designed to offer you different areas for morning and afternoon light, according to sun exposure. This new project has everything: an amazing location and views, quality construction and luxurious living.
