Bring Your Dreams To Life!

This quality of a home is rarely available for purchase! The wonderfully designed home has rooms that captivate you with their grandeur and elegance, and it features meticulous attention to detail that personifies the accents and painting techniques of a Tuscan masterpiece. The expansive interior rooms have been thoughtfully planned and arranged to their best advantage with dimensions of opulent sophistication, complemented by a grand staircase and exquisite lighting.

A wood-burning fireplace in the formal parlor, a fully equipped study, and a TV room with block-out curtains make for the ideal movie night at any time of day. Take a short flight of stairs to reach a truly hidden gem: an underground wine cellar and poker area that is sure to keep your pals occupied.

The granite kitchen, featuring a central block and integrated appliances such as an Miele coffee station, is a chef's fantasy and serves the baronial dining area. boasting a pantry and separate scullery area.

With four en suite bedroom suites that open onto a wide wrap-around patio, this luxurious palazzo has it all.

Through a convenience space and a separate scullery, a double car garage leads into the house, accommodations with two staff members and more parking. There is a work from home option.

The concept appears as a whole with smooth transitions due to the well-executed exterior design and the layout of the pool, lawn, garden, and villa. You can sip Prosecco from the bold, covered terrace while feeling as though you are in heaven, tucked away in complete seclusion inside the well-kept, towering gardens.

Many festivities incorporating classic events are in store for you!
