The Essence is essentially sandwiched between Lower Seletar Reservoir on the east and Seletar Reservoir on the west. With wide open spaces in every direction like the Central Catchment Natural Reserve, Sembawang Country Club, Lower Peirce Reservoir, it is no wonder that nature is the theme of this project. This development is situated between Thong Bee and Hung Kuo Road and it is in a private enclave of landed properties with no high-rise buildings. This Essence is a low density 2-block, 5-storey, 84-unit luxury condominium where each unit having its own car park. The design layout starts from one bedroom and one study (1B+S) from 538 sqft to three-bedroom premium at 1679 sqft.
