Welcome to your paradise by the sea, an expansive two story villa with panoramic floor to ceiling views of the Pacific Ocean. Upon entering the arched exterior door to the courtyard, the first impression is the tranquility of the fountain, the elegance of the hand laid stone tiles and the craftsmanship of the custom wrought iron and glass doorway that allows the first glimpse of the sea. Stepping inside, a grand chandelier and custom tile inlay accent the high ceilings and broad spaces. An entertainer's dream, the upper level great room brings conversation from living room to kitchen and dining and right out to the balcony overlooking the pool and ocean. There's plenty of room for dancing and live entertainment! For the culinary enthusiast, a large black granite island and marble backsplash frame the custom cabinets and upgraded stainless appliances. A walk-in pantry keeps everything at your fingertips. The master suite is truly a luxury with the open view from the standalone soaking bathtub through glass French doors to the balcony. Built with functionality and convenience in mind, small details are noted everywhere. Heading down the floating staircase, four additional bedrooms provide plenty of room for family, offices or additional guest accommodations. The two front rooms enjoy ocean views and walk-out access to the pool and patio. The glass accordion doors on both levels provide plenty of fresh breeze from the ocean. For the wine and cigar enthusiast, a custom wine cellar with vent can fit a tasting or card table and is decorated with curved brick ceilings and faux paint. Lounge with loved ones in the large sitting room. The home has upgraded internet with solid connection throughout perfect for online entertainment or working from home. The pool and deck provide relaxing afternoons and romantic evenings. Just wait until you can watch the sunrise over the ocean, the whales entertaining in their mating season, and the full moon rising over the balcony. There really is something special inside
